No more music

2005-12-05 21:46

It seems no more good music reaches me anymore. Could it be that rock music has **died**?

News Alpha

All samples are to be seen as concept prototypes.

Content management

Content management is done through a very basic, and (not yet very usable) web interface.

Stream and page patterns

A page is defined as an XML page pattern, and it consists partly of re-usable XML stream patterns.
